

Eternal Analytics

Solutions Pvt. Ltd.

Overview

Qlik Sense is one of the leading business intelligence and data visualization tools available. This class provides an excellent overview of the features in Qlik Sense and how to use them to get the most insights from your data.

Audience

This two-day course is designed for the beginner Qlik Sense user. It will help you understand and use the basic techniques for creating visualizations and combining them in interactive dashboards.

Prerequisites

Before attending this course, students should have experience using Microsoft Excel.
